

MUNICIPALITÉ DE
MUNICIPALITY OF
MILLE-ISLES

Your Municipality collectively contributes to the efforts of confinement and community support

Around you, local initiatives are multiplying to help isolated and vulnerable people, especially those aged 70 and over.

The Municipality of Mille-Isles is actively mobilizing to be a part of this movement of support and solidarity. We have mobilized staff to reach out to our senior citizens to ensure their safety and essential needs. All those who have expressed a request for support will be taken care of by the community organizations of the MRC d'Argenteuil.

If you know a person in a situation of isolation or a vulnerable person, and in need, please call the municipal office. You notice a neighbour in distress or that his health is deteriorating? Contact the 911 emergency centre.

Together, all united, we can save lives!

Opening hours of the municipal office:
