

TAMARACOUTA AND MILLE-ISLES ROADS

Upon completion of the major roadwork, Tamaracouta Road will maintain approximately the same width, i.e. 6.2 meters and 0.9 meters for each shoulder. However, trees were cut down in several places to allow for proper ditching. Since the road's right-of-way is so narrow, the Municipality has acquired two strips of land of 4 meters wide, belonging to Mr. Mario Durocher and Scouts Canada, which will make it possible to achieve the ditching needed. We thank them for their collaboration in the realization of this project.

The section of Tamaracouta Road that will benefit from the work is between Mille-Isles Road and Hammond Road. It represents approximately 8.25 kilometers:

- 3.5 kilometers will be rebuilt in several sections;
- 1.75 kilometers of asphalt will be preserved and repairs to cracks and ditches will be made where required;
- 3 kilometers will be repaired depending on the requirements (stone and stump removal, culvert replacement, etc.). Ditching will be done and new pavement will be put down on this entire length.

List of major works planned in Mille-Isles for 2020

Project	Detail	Timeline
Tamaracouta Road (between Mille-Isles and Hammond Roads)	Pruning: ✓ For the ditches; ✓ In some places requiring the road to be moved a few feet.	April and May
	✓ Excavation of ditches and culverts; ✓ One shovel road repair northwest of Black; ✓ Site preparation for soil storage.	May and June
	✓ Increased presence of equipment simultaneously; ✓ Crushing of asphalt; ✓ Repair of the road foundations over 3.5 kilometers. The road will be temporarily closed in sections.	July, August and September
	✓ Complete the excavation; ✓ Spread the last layer of gravel before asphalt; ✓ Paving the road.	September and October
	✓ Final gravel on shoulders and driveways; ✓ Installation of guardrails; ✓ Lineage of the road.	November
	Work under the MTQ's jurisdiction: ✓ Removal of asphalt and rocks; ✓ Paving. Occasional road closure, check road sign.	May, June and July (completion around mid-July)
Mille-Isles Road (mainly between Black and Cambria Roads)	Work under the MTQ's jurisdiction: ✓ Removal of asphalt and rocks; ✓ Paving. Occasional road closure, check road sign.	May, June and July (completion around mid-July)

Residents living on these roads will still be able to access their property, except in special cases such as changing a culvert giving access to a property. If applicable, we will contact you in due course to arrange remedial solutions. To reach the Director of Public Works Department, Yves Latour, please call 450 438-2958 ext. 2612.
